Ergonomics / Dynamic Dentistry (2.5hrs)

Megan Sharpe

Meg is a well known presenter throughout New Zealand and Australia and delivers a comprehensive and informative presentation of theory in a method for practical application in everyday clinical practice in the dental setting.

She has a clinical background and has completed a training programme in practicing proper posture and ergonomics while performing dental procedures and realises this is extremely important to all team members in the dental practice. She has designed these presentations to bring awareness and provide the necessary tools for staff to look better, feel better and be more productive with minimal practice related pain and fatigue. Her goal is to encourage selection of appropriate products and use of efficient instruments and equipment to promote a better sense of wellbeing, enhance productivity and increase overall longevity and prosperity of a dental career.

Meg has over 25 years' background and experience in the dental industry. She has comprehensive clinical and industry knowledge and has held many roles in both fields including Dental Auxiliary, Clinical Services Manager, Patient Treatment Co-Ordinator, Practice Manager, Territory Manager, Sales Manager, Training & Development Manager, and currently as Professional Services Manager.

She also provides an independent Consultant service for Infection Control Solutions – Australia/New Zealand. With a clinical background and a passion for dentistry, Meg imparts her knowledge in an interactive and friendly manner ensuring all members of the team are clear about their role responsibility and accountability for enhanced productivity and therefore increased productivity.

Restoring the Vertical Dimension (1hr)

Abe Awakian

Graduated from Randwick College June '84. Registered as a Dental technician in July '86.

Worked at Dental Services, Sydney then Natural Ceramics, Neutral Bay till Dec 1988. Established a commercial laboratory in Sydney's west doing all aspects of commercial work. Undertook the Prosthetist's course in '91 and graduated in '93 and awarded the inaugural 'Phil Harris Memorial Prize' in Dental Prosthetics. Established a Denture clinic in '93 and still practising at that clinic.

Began part-time teaching in 2001 at Randwick and then full-time teaching in 2006.

Teaching students at Randwick in the Diploma of Dental Technology and students at Sydney Dental Hospital in the Advanced Diploma of Dental Prosthetics. Graduated in 2010 with a degree in Adult Education and Psychology.

Presently practising in private practice providing all aspects of denture services, including implant retained overdentures and involved in education on a more formal basis. Currently Senior Vice President of ADPA NSW and Director of the national ADPA Ltd.

Customising Acrylic Teeth with composite – a great combination (2.5hrs)

John Selan

John Selan is a talented ceramist and founding partner of Selan & Takle Dental Ceramics, who, after thirty-five years, has recently retired from the Company.

John has held the position of technical consultant on the Board of the Seattle Study Club for the past five years, during which time he has given lectures and presentations both to this and other dental groups.

John has had articles published in technical journals both in Australia and overseas. In fact Vita were so impressed with John's technical piece of writing on the practical techniques for achieving reliable and consistently good results with their VM13 porcelains that they distributed this article internationally.
