

CONCEPT AND BENEFITS

VITA AKZENT® LC is a stain/glaze system for characterizing all indirect restorations made of composite, polymer and hybrid ceramic. The stains enable precise effect reproduction and reliable shade correction.

THE ADVANTAGES

Reliable reproduction

- Reliable, natural reproduction of all the shade nuances of natural dentition, thanks to a wide range of brilliant effect stains

Easy modification

- Simple realization of shade modifications with a brush stroke, using chroma shades for plannable, systematic control of the chromaticity of dental restorations

Efficient processing

- Apply individual shade effects with pinpoint accuracy and apply shades efficiently over a large area, thanks to effect and chroma stains with ideally matched viscosities

Durable results

- Produce restorations with consistently brilliant shade rendering and high gloss stability, thanks to stains with good wear and resistance to discoloration

OVERVIEW OF SHADES AND VARIANTS

VITA AKZENT® LC portfolio overview		
VITA AKZENT® LC EFFECT STAINS		
	For precise reproduction of individual characteristics/ effects	<div>  white  orange  dark-red  grey </div> <div>  cream  russet  purple  black </div> <div>  lemon  khaki  blue </div> <div>  sun  pink  grey-blue </div>
VITA AKZENT® LC CHROMA STAINS		
	For a systematic increase in chromacity	<p>VITA classical A1–D4</p> <div>  A red-brown  B red-sun  C grey-brown  D grey-red </div> <p>VITA SYSTEM 3D-MASTER</p> <div>  L corn-yellow  M2 red-yellow  M3 dark-yellow  R light-yellow </div>
VITA AKZENT® LC GLAZE		
	For permanent and brilliant surface sealing	<div>  glaze </div>
VITA AKZENT® LC COMPONENTS		
	Ideally matched system components for reliable processing	<ul style="list-style-type: none"> • CLEANER • BRUSH SET • MIXING TRAY
