Dr Jamie Foong invites you to an evening session discussing onlays and some of the latest cements on the market that can be used with the new ceramic materials available.

Cementation of these new materials is one of the keys to success and having the knowledge and skills to select and use the right cement properly is of paramount importance.

Topics Discussed:

- Dental materials for bonding
- Adhesion in dentistry
- The latest cements available
- Clinical steps for cementation
- Hands-on exercise
